# HAPPY DEEPAVALI

## FESTIVAL OF LIGHTS

This festive season, we come together in the spirit of Deepavali to celebrate unity, joy, and appreciation across our workplace. Thoughtfully arranged festive decorations around the office have created a warm and vibrant atmosphere, reflecting the rich colors and traditions of Deepavali.

As a token of our appreciation, we shared a delicious lunch with all colleagues at both the PGP and BKP locations. We hope everyone enjoyed the festive treat and the opportunity to celebrate together.

Together, we continue to embrace a joyful and inclusive working environment—one where everyone feels valued, connected, and appreciated during this season of light and renewal.

As we celebrate Deepavali, the Festival of Lights, may this joyful occasion bring happiness, peace, and prosperity to all our employees and their families. Deepavali reminds us of the triumph of light over darkness and wisdom over ignorance—values that reflect our shared commitment to growth, teamwork, and continuous improvement.

# PENANG SCIENCE FAIR 2025

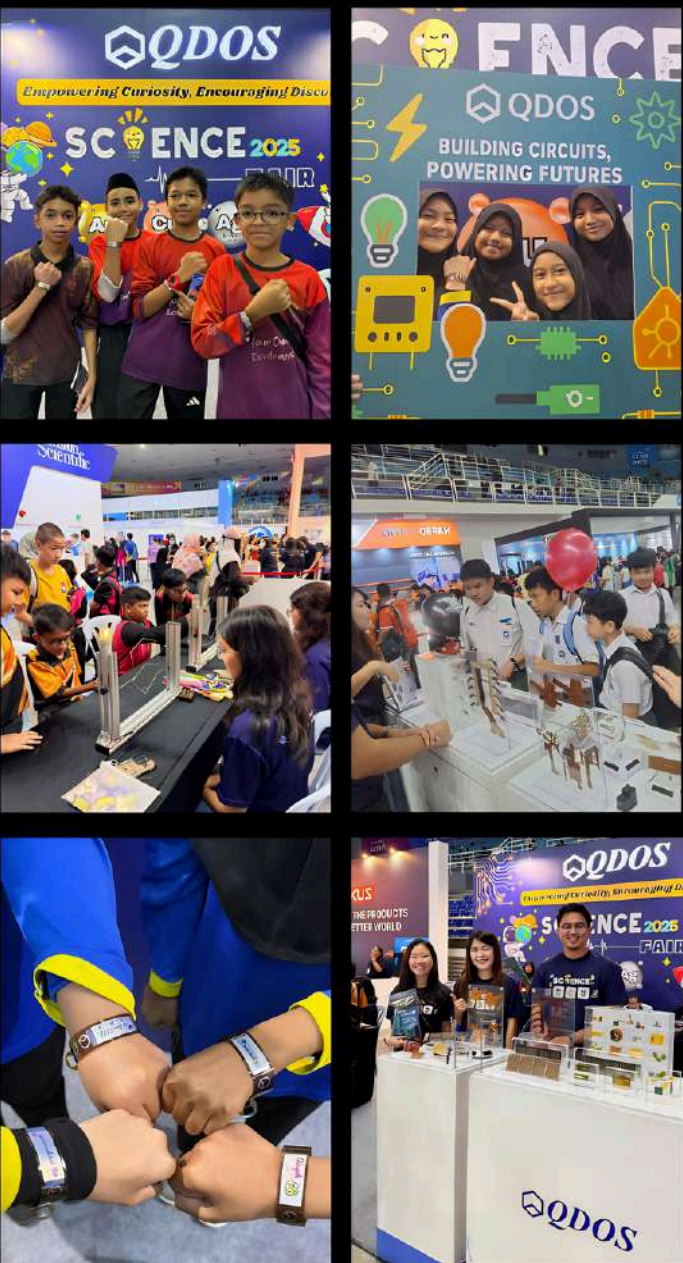

## A Heartfelt Thank You For A Successful PISF Event!

We extend our heartfelt thanks to all committee members and top management for their unwavering support in making our recent event a remarkable success. Your commitment, effort, and collaboration were instrumental in bringing everything together – your contributions truly made a lasting impact!

We are thrilled that our booth had attracted more than 2400 visitors, who eagerly participated in our engaging activities. A highlight of the event was the popular Buzzwire Station, where both children and adults joined in the fun. Parents brought their children to take part in the buzzwire station, all are eager to challenge the buzzwire to the end!

One of the most exciting features was the FCCL in Nickel, which was customized with unique stickers made using the Colop printer. It was wonderful to see kids unleash their creativity and create truly unique designs. We are proud to use our product as part of fun activities in PISF 2025.

The event provided a wonderful opportunity for both parents and children to engage with science, explore new ideas, and experience the joy of learning together. We hope this inspiring experience sparks lasting curiosity and creativity in the next generation of thinkers and innovators.
